Description:

On a sweltering summer day in 1992, the body of Patricia Fonti was found in the Brooklyn neighborhood of Highland Park. She had been stabbed

more than 100 times. The Zodiac Killer had struck again. Renowned psychic medium Jackie Barrett is no stranger to visits from the dead. But when the spirit of Patricia Fonti comes to her twenty years after her death, Jackie finds herself caught in an unexpected battle for the restless, schizophrenic soul of a murder victim. Here is Jackie's first-person account of her connection with Patricia Fonti and her murderer, New York Zodiac Killer Heriberto "Eddie" Seda, whose early 1990s killing spree paralyzed the city with fear. In exclusive letters, drawings and recorded telephone conversations from prison, Eddie divulges things to Jackie that have never been made public, including how he killed and why. Her astounding interviews with the man who calls himself "The Soul Collector" give rare insight into the recesses of a very dark mind. And while Jackie struggles to help Patricia Fonti find peace, Eddie insists he and Jackie are two halves of a whole, that together they make up the astrological sign of the twins—the Gemini. . . The Haunting of the Gemini is more than a book about the New York Zodiac murders. Much more. It is a glimpse into the complicated, frightening, and burdensome world of a talented psychic medium. I have known for a long time that I am a little more in touch with the psychic world than the average person. Before reading this book, I had often wondered what it would be like to possess the kind of talent with which Jackie is gifted. After reading this book, I thank God I am not burdened with the gift. So few people could live their lives carrying around the sorrow and evil lifted from the backs of other people. Jackie is more than a talented author and psychic medium. She is a gift to everyone whose life she has touched. The Haunting of the Gemini reveals the enormity of the challenges she faces but only scratches the surface of the contributions she makes to the lives and afterlives of the sad, lost, and tortured souls of those living as well as those who have passed on. This book is a must-read for anyone with an interest in the paper-thin divide between the world of the living and the world of the dead. Don't forget to look under your bed at night!
